# BASEL III Pillar 3 Market Discipline Disclosures on risk Based capital

The public disclosure of prudential information is an important component of Basel Committee on Banking Supervision's framework of capital measurement and capital adequacy, known as Basel III. Bangladesh Bank has specified the standard of disclosure through Guidelines on Risk Based Capital Adequacy (December 2010) which revised in Basel III Guideline on December 2014 with effect from January 2015. The standard aims to enhance the transparency in Bangladeshi financial market by setting minimum requirement for the disclosure of information on the risk management practice and capital adequacy. In line with the Bangladesh Bank BRPD Circular no. 35 of December 29, 2010 as to Guidelines on 'Risk Based Capital Adequacy for Banks' and subsequent BRPD Circular 18 dated December 21, 2014 on 'Guideline on Risk Based Capital Adequacy', following detailed qualitative and quantitative disclosures are provided in accordance with the central bank directions covering scope of capital adequacy framework, capital of the bank, risk exposure and assessment methodology, risk mitigation strategies and capital adequacy of the bank. To cope up with the international best practices and to make the bank's risk absorbent capital 'Guidelines on Risk Based Capital Adequacy (RBCA) for banks' (Revised Regulatory Capital Framework in line with Basel II) was introduced from January 01, 2009 as a parallel run with BRPD Circular No. 10, dated November 25, 2002 (Basel I). At the end of parallel run, Basel II regime started from January 01, 2010 and the guidelines on RBCA came fully into force with its subsequent supplements/revisions. After that, Bangladesh Bank issued 'Guidelines on Risk Based Capital Adequacy (RBCA) for banks' (Revised Regulatory Capital Framework in line with Basel III) vide its BRPD Circular 18 dated December 21, 2014 that Basel III reporting start from January 2015 and full implementation also start from January 2020. Instructions regarding Minimum Capital Requirement (MCR), Adequate Capital and Disclosure requirement as stated in the guidelines had to be followed by all scheduled banks for the purpose of statutory compliance.

| Capital Adeq              | uacv | •  |  |
|---------------------------|------|--|--|
| Qualitative<br>disclosure | a)   | A summary discussion of the bank's approach to assessing the adequacy of its capital to support current and future activities. | The Bank has adopted Standardized Approach (SA) for computation of capital charge for credit risk and market risk, and Basic Indicator Approach (BIA) for operational risk. Assessment of capital adequacy is carried out in conjunction with the capital adequacy reporting to the Bangladesh Bank.   |
|                           |      |  | The Bank has maintained Capital to Risk Weighted Asset Ratio (CRAR) at 17.55% & 17.06% for stand-alone and for consolidated group respectively. As per guideline, Bank is required to maintain a Capital Conservation Buffer (CCB) of 2.50%, comprised of Common Equity Tier-1 (CET-1) Capital, above the regulatory Minimum Capital Requirement (MCR) of 10%. The following table shows that Bank has adequate Tier-1 & Tier-2 Capital to maintain all the ratios at the required level. It has covered both MCR as well as CCB (required for 2023) with its eligible capital after considering all regulatory adjustments. |
|                           |      |  | The Bank's policy is to manage and maintain its capital with the objective of maintaining strong capital ratio and high rating. The Bank maintains   |

capital levels that are sufficient to absorb all material risks. The Bank also ensures that the capital levels comply with regulatory requirements and satisfy the external rating agencies and other stakeholders including depositors. The main objective of the capital management process in the Bank is to ensure that Bank has adequate capital to meet up its all sorts of obligations any time.

# 4. Credit Risk:

| Qualitative disclosure | a) | The general including:   | qualitative disclosure requirement with respect to credit risk,   |
|------------------------|----|--|---|
|                        |    | i) Definitions<br>of past due<br>and<br>impaired<br>(for<br>accounting<br>purposes); | With a view to strengthening credit discipline and bring classification and provisioning regulation in line with international standard, a phase-wise program for classification and provisioning was undertaken by the Bank as per Bangladesh Bank circulars issued from time to time. In this regard, all the loans and advances/investments are grouped into four categories for the purpose of classification, namely (i) Continuous Loan, (ii) Demand Loan, (iii) Fixed Term Loan and (iv) Short-term Agricultural and Micro Credit. They are classified as follows: |
|                        |    |  | Continuous & Demand Loan are classified as: Any Continuous Loan if not repaid/renewed within the fixed expiry date for repayment or after the demand by the bank will be treated as past due/overdue from the following day of the expiry date. Any Demand Loan if not repaid within the fixed expiry date for repayment or after the demand by the bank will be treated as past due/overdue from the following day of the expiry date.   |
|                        |    |  | <ul> <li>Sub-standard- if it is past due/overdue for a period of 03(three) months or beyond but less than 09 (nine) months;</li> <li>Doubtful- if it is past due/overdue for a period of 09 (nine) months or beyond but less than 12 (twelve) months;</li> <li>Bad/Loss- if it is past due/overdue for a period of 12 (twelve) months or beyond.</li> </ul>   |
|                        |    |  | In case of any installment(s) or part of installment(s) of a Fixed Term Loan is not repaid within the fixed expiry date, the amount of unpaid installment(s) will be treated as past due/overdue after six months of the expiry date.   |
|                        |    |  | <ul> <li>Sub-standard- if it is past due/overdue for a period of 03(three) months or beyond but less than 09 (nine) months;</li> <li>Doubtful- if it is past due/overdue for a period of 09 (nine) months or beyond but less than 12 (twelve) months;</li> <li>Bad/Loss- if it is past due/overdue for a period of 12 (twelve) months or beyond.</li> </ul>   |
|                        |    |  | Cottage, Micro and Small Credits under CMSME:   |
|                        |    |  | > <b>Sub-standard</b> - if it is past due/overdue for a period of 06  |

- (six) months or beyond but less than 18 (eighteen) months;

  > Doubtful- if it is past due/overdue for a period of 18 (eighteen) months or beyond but less than 30 (thirty) months;

  > Bad/Loss- if it is past due/overdue for a period of 30 (thirty) months or beyond.

  Short-term Agricultural and Micro Credit will be considered irregular if it is not repaid within the due date as stipulated in the loans agreement and will be classified as under:
  - > **Sub-standard** if the irregular status continues after a period of 12 (twelve) months, the credits are classified as "Sub-standard".
  - ➤ **Doubtful-** if the irregular status continue after a period of 36 (thirty six) months, the credits are classified as "Doubtful".
  - ➤ **Bad/Loss** if the irregular status continue after a period of 60 (sixty) months, the credits are classified as "Bad/Loss".

A Continuous loan, Demand loan or a Term Loan which remained overdue for a period of 02 (two) months or more, is treated as "Special Mention Account (SMA)".

ii)
Description
of
approaches
followed for
specific and
general
allowances
and
statistical
methods;

### 6. Interest Rate Risk in the Banking Book (IRRBB)

# Qualitative disclosure

a) The general qualitative disclosure requirement includina the nature of **IRRBB** and key assumptions, including assumptions regarding loan prepayments and behavior of non-maturity deposits, and frequency of IRRBB measurement.

Interest rate risk is the risk where changes in market interest rates might adversely affect a bank's financial condition. Changes in interest rates affect both the current earnings (earnings perspective) as well as the net worth of the bank (economic value perspective). To evaluate the impact of interest rate risk on the net interest margin, Prime Bank monitors the size of the gap between rate sensitive assets and rate sensitive liabilities in terms of the remaining period to repricing. Repricing refers to the point in time when adjustments of interest rates on assets and liabilities occur owing to new contracts, renewal of expiring contracts or that a contract specifies a floating rate that adjusts at fixed time intervals.

A maturity mismatch approach is used to measure Prime Bank's exposure to interest rate risk. A positive mismatch means that more assets than liabilities are repriced in a given period. With a positive mismatch, a rise in market interest rates will have a positive effect on the bank's earnings. On the other hand, a negative mismatch, where more liabilities are repriced than assets in a given period, means a drop in earnings if interest rates had increased.

The table presented below showing the Interest Rate Risk Analysis of Prime Bank PLC. The analysis shows that Bank may have a positive earnings impact of Taka 1.84 crore in the first quarter which has also been positive in the second quarter. In the third quarter, the total year-to-date accumulated earnings impact has also been positive (Taka 7.22 crore). Hence, accumulated earning for the year 2023 owing to a 1% increase in interest rate is a gain of Taka 8.70 crore.

The rule of thumb suggests that quarterly gaps, causing an earnings impact of 10% of the Bank's average quarterly net profit for each 1% change in interest rates, should be carefully handled by the Bank's Management. The last row of the following table reveals that earnings impact on Prime Bank's average quarterly net profit is not significant and remains within the acceptable limit as prescribed by Bangladesh Bank.

# 7. Market Risk:

| Qualitative<br>disclosure | a) | i) Views of Board of Directors (BOD) on trading/ investment activities. | balance sheet and off-balance sheet positions arising  |
|---------------------------|----|---|--|
|                           |    |   | <ul> <li>Interest rate risk</li> <li>Equity position risk</li> <li>Foreign exchange (including gold) position risk throughout the bank's balance sheet and</li> <li>Commodity risk.</li> </ul>   |
|                           |    | ii) Methods used to<br>measure Market risk.                             | Measurement Methodology: As banks in Bangladesh are now in a stage of developing risk management models, Bangladesh Bank has suggested the banks for using Standardized Approach for credit risk capital requirement for banking book and Standardized (rule based) Approach for market risk capital charge in their trading book. |

Maturity Method has been prescribed by Bangladesh Bank in determining capital against market risk. In the maturity method, long or short positions in debt securities and other sources of interest rate exposures, including derivative instruments, are slotted into a maturity ladder comprising 13 time-bands (or 15 time-bands in case of low coupon instruments). Fixed-rate instruments are allocated according to the residual term to maturity and floating-rate instruments according to the residual term to the next re-pricing date.

In Standardized (rule based) Approach the capital requirement for various market risks (interest rate risk, price, and foreign exchange risk) are determined separately.

The total capital requirement in respect of market risk is the sum of capital requirement calculated for each of these market risk sub-categories. e.g.:

- a) Capital Charge for Interest Rate Risk = Capital Charge for Specific Risk + Capital Charge for General Market Risk;
- b) Capital Charge for Equity Position Risk = Capital Charge for Specific Risk + Capital Charge for General Market Risk;
- c) Capital Charge for Foreign Exchange Risk = Capital Charge for General Market Risk;
- d) Capital Charge for Commodity Position Risk = Capital charge for general market risk.
- iii) Market Risk Management system.

Treasury Division manages the market risk and ALCO monitors the activities of treasury Division in managing such risk.

iv) Policies and processes for mitigating market risk.

To mitigate the several market risks the bank formed Asset Liability Management Committee (ALCO) who monitors the Treasury Division's activities to minimize the market risk. ALCO is primarily responsible for establishing the market risk management and asset liability management of the Bank, procedures thereof, implementing core risk management framework issued by the regulator, best risk management practices followed by globally and ensuring that internal parameters, procedures, practices/polices and risk management prudential limits have been set up and followed.

The Treasury Division are taking following measures to minimize the several market risks:

i) Foreign exchange risk management: it is the risk that the bank may suffer losses as a result of adverse exchange rate movement during a period in which it has an open position in an individual foreign currency. This risk is measured and monitored by the Treasury Division. To evaluate the extent of foreign exchange risk, a liquidity Gap report is prepared for each currency.

| <b>ii) Equity Risk:</b> Equity risk is defined as losses due to changes in market price of the equity held. To measure and identify the risk, mark to market valuation of the investment portfolios of share is being done. Mark to market valuation is done against a predetermined limit. At the time of investment, following factors are taken into consideration: |
|--|
| <ul> <li>a) Security of Investment</li> <li>b) Fundamentals of securities</li> <li>c) Liquidity of securities</li> <li>d) Reliability of securities</li> <li>e) Capital appreciation</li> <li>f) Risk factors and</li> <li>g) Implication of taxes etc.</li> </ul>   |

| Quantitative | b) | The capital requirements for: | Solo  | Consolidated |
|--------------|----|-------------------------------|-------|--------------|
| disclosure   |    |                               | Taka  | in Crore     |
|              |    | Interest rate risk            | 17.03 | 17.06        |
|              |    | Equity position risk          | 17.44 | 64.23        |

# 8. Operational Risk:

| Qualitative<br>disclosure | a) | i) Views of<br>BOD on<br>system to<br>reduce<br>Operational<br>Risk | Operational risk is defined as the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. This definition includes legal risk but excludes strategic and reputation risk. It is inherent in every business organization and covers a wide spectrum of issues. The Board of Directors (BOD) of the Bank and its Management firmly believe that an effective internal control systems has been established within the Bank to ensure adequacy of the risk management framework and compliance with a documented set of internal policies concerning the risk management system which |
|---------------------------|----|---|--|
|                           |    |   | # Top-level reviews of the Bank's progress towards the stated objectives; # Checking for compliance with management controls; # Policies, processes and procedures concerning the review, treatment and resolution of non-compliance issues; and # A system of documented approvals and authorizations to ensure accountability to the appropriate level of management.  |
|                           |    |   | Bank has ensured some other internal practices to be in place as appropriate to control operational risk. Examples of these include:  # Close monitoring of adherence to assigned risk limits or   |
|                           |    |   | thresholds; # Maintaining safeguards for access to, and use of, bank's assets  |

and records;

- # Ensuring that staffs have appropriate expertise and training;
- # Regular verification and reconciliation of transactions and accounts.

The BOD has modified Bank's operational risk management process by issuing a high level standard like SOP, supplemented by more detailed formal guidance. This explains how the bank manages operational risk by identifying, assessing, monitoring, controlling and mitigating the risk, rectifying operational risk events, and implementing any additional procedures required for compliance with local regulatory requirements.

The Bank maintains and tests contingency facilities to support operations in the event of disasters. Additional reviews and tests are conducted in the event that any branch of the bank is affected by a business disruption event, to incorporate lessons learned in the operational recovery from those circumstances. Plans have been prepared for the continued operation of the bank's business, with reduced staffing levels.

ii)
Performance
gap of
executives and
staffs.

#### **Motivated and Engaged Employees**

Prime Bank has a diverse group of motivated and engaged employees. From experience it knows that if employees are properly empowered, they become more engaged and go extra miles to fulfill organization's ambition. Engaged employees are likely to take more responsibility and embrace accountability which helps to achieve the sustainability strategies. The Bank has positioned itself with a performance-driven rewarding work culture; where employees are treated with respect and receive plenty of development opportunities. Prime Bank has a special focus on:

- Ensuring a balanced diversity
- Promoting human capital development
- Providing competitive compensation and benefits
- Promoting a performance centric culture
- Protecting human rights
- Ensuring workplace health and safety
- Ensuring equal opportunity

All the people related issues in Prime Bank are governed by the well-defined policies and procedures which are duly reviewed by the Management time to time.

## **Compensation & Benefits**

To maintain the market competitiveness, the compensation and benefits of Prime Bank are regularly reviewed through market and peer group study. The well-crafted total rewards help the Bank to attract, motivate and retain talent. In PBL, the Board of Directors is not eligible for any compensation. They are paid honorarium for attending meetings only. On the other hand, all employees are paid competitive remuneration package. The remuneration policy of the Bank does not allow any discrimination between male and female employees. In addition, employees are paid bonus based on yearly business performance.

In addition to monthly competitive base pay and a good number of allowances (e.g., House Rent allowance, Medical allowance, Conveyance allowance etc.), Prime Bank has variety of market-competitive Benefits schemes designed to motivate the employees. The various cash and non-cash benefits include:

- Company provided car for top level Executive employees
- Car allowance for all Executive level employees
- Leave fair assistance allowance
- Medical treatment allowance
- Maternity benefits
- Car loan facility
- House loan facility
- Staff loan at reduced interest rate
- House furnishing allowance
- Mobile phone allowance
- Travel allowance
- Technical allowance
- Festival bonus
- Allowance for employees' meritorious students
- Annual leave
- Maternity leave
- Study leave etc.

The Bank also provides long-term as well as retirement benefits to employees:

- Leave encashment
- Provident fund
- Gratuity benefit
- Retirement benefit
- Partial and full disability benefit
- Death benefit to family members etc.

## **Broadbanding Pay Structure:**

The Management introduced Broadbanding Pay Structure which aims to ensure a performance driven work culture through a strategic compensation plan synced with the performance of individual employee. Since inception, Prime Bank has practiced a scale based pay structure for each grade, so to reward individual

performance the new policy offers a flexible pay plan that will compensate the person, not the grade. It places an increased emphasis on encouraging employees to develop new skills and paying for the skills according to their contribution and equity. In a nutshell, broadbanding is a more flexible pay system for both the employees and for the employers where career progression takes a different route. Given that, the specific reasons behind introduction of this new pay structure is:

- 1. It facilitates/encourages internal/ lateral movement (Through Job Rotation)
- 2. It rewards performers than the non-performers (Through Pay for Performance)
- 3. It puts added trust & greater autonomy in line management (Through Teamwork/ Relationship)

Moreover, the policy states that when one employee reaches the highest grade within a Band, the employee will grow further when he/she is ready to take or has taken higher responsibilities and match the criteria of the next Band.

The total compensation and benefits system of Prime Bank tracks costs and is linked with performance, while maintaining a balance with the business affordability.

## **Performance Management Program**

Prime Bank has a comprehensive performance management program that evaluates employees' yearly performance against business targets at the year-end. In addition, their functional and leadership competencies are also rated by the line management. This appraisal process also identifies the competency gap and training needs of employees. All employees (except employees under probation or training) of the Bank undergo annual performance appraisal process. The process ensures that clear feedback on improvement points (performance and professional capabilities) is provided to employees by their Managers to promote employees' long-term career development and improved contribution to organizational performance. All regular employees undergo the annual performance and career development review.

#### **Work-life Balance**

Prime Bank wants its' employees to balance the work and personal life and has organization-wide practices and policies that actively support employees to achieve success at both work and home. Management is also open and shows flexibility in regard to a balanced work-life.

In Prime Bank, employees are entitled to sufficient annual leave and sick leave with pay. To enjoy vacation with family, Bank provides Leave Fare Assistance Allowance to employees. All female employees are eligible for Maternity Leave (Parental Leave) with pay for a period of six months. In 2021, a total of 32 female employees availed Maternity leave. After completion of the leave, they returned to work and are still continuing with the organization.

### **Culture**

Culture plays a vital role to create a high performance environment that supports sustainability strategy implementation. Prime Bank carefully develop, shape and impact organizational culture by: practicing values appropriate for the bank; defining working relationship and communication pattern between superior and subordinates; governing rules and regulations which control employees' behaviour; promoting a strong employer brand through which employees identify with the organization; maintaining effective reward system that affects employees loyalty and empowering employees to demonstrate their innovativeness not only to be competitive in the market but also to achieve a sustainable growth.

# **Healthy and Safe Work Environment**

In Prime Bank, the physical, mental and social well-being of the employees always gets priority. Healthy, productive and motivated employees are the foundation of a successful organization. Prime Bank helps employees to assume responsibility for their own personal behavior in health-related matters, and support healthpromoting general conditions within the Company. continuously focus on improving health and safety of employees that includes proper work place design and decoration of head office and branches, maintaining the cleanliness at work space, holding awareness session related to physical and psychosocial well-being, email communication on various health and safety related topics, sending alerts to employees on emergency situations, arranging fire drill sessions, financial support for medical care etc. Because of the nature of operations, Bank employees are not usually exposed to work-related injury, occupational diseases or fatality. Yet, the Bank remains cautious so as not to create any hazardous work condition.

#### **Decent Workplace**

Prime Bank has a decent work environment where employees can work with dignity, have the freedom to express opinions, can participate in the decision making process that affect their lives, and receive equal treatment and opportunity. The Bank is committed to ensure the best practices in compliance with the labour code of the country. Bank Management believes that the business can grow favourably if the organization enables employees through creating and maintaining a decent workplace.

In Prime Bank, employees have the right to exercise freedom of association or collective bargaining following the legal procedure of country laws. However, employees have never formed or wanted to form any collective bargaining agency. The Bank follows non-discriminatory approach in all HR policies and practices. The salary of an employee is determined based on his/her competency, experience and performance. The Bank neither employs child labour nor has any provision for forced labour. Employees have the right to resign from their employment serving proper notice period and following the internal procedures.

Ensuring a decent workplace also encompass Bank's investment decisions as well as agreements with the suppliers and contractors. For instance, human right, as appropriate, is covered as an integral part of decision making for major financial investments. Among all the significant investments, garments and manufacturing industry contain major stakes where issues related to human rights are more relevant and critical. Hence, any such investment agreement is subject to screening of human right issues along with other criteria.

On the other hand, all the agreements of Prime Bank with suppliers or contractors undergo due assessment process which requires complying with Labour Code and other applicable laws of the country. Moreover, the procurement decisions are also subject to conformity with International Labour Conventions. The team involved in procurement visits suppliers and contractors' premises on need basis to monitor working conditions and other relevant issues like labour practices, human right etc.

The security personnel employed by the Bank are formally trained and aware of policies and procedures regarding human right issues. The training requirement also applies to third party organizations that provide security personnel to the Bank.

The most recent addition to encourage female employees at the workplace is that they are now able to avail child day-care facility in Motijheel area. Female employees having offices in Motijheel and peripheral area now can avail child day-care facility where they can keep their children in a safe and secured environment. This will not only help to retain female employees but will relieve them of the dilemma of leaving their child/children at home.

### **Diversity in Workplace**

Prime Bank believes that diverse, heterogeneous teams generate greater creativity, innovation and business development. An inclusive culture maintains and drives workforce diversity by fostering the exchange of ideas and collaboration among

individuals and across groups. To speak simply, our constant success depends in part on maintaining a plurality of perspectives.

# Employees by age group and gender:

| Age group          | No. of Emp. | Percentage |
|--------------------|-------------|------------|
| Less than 30 years | 144         | 4.87%      |
| 30 to 50 years     | 2,581       | 87.25%     |
| Over 50 years      | 233         | 7.88%      |
| <b>Grand Total</b> | 2,958       | 100.00%    |

We practice equal employment opportunity for competent candidates regardless of their gender, age, locality or ethnicity. While recruiting fresh graduates, the Bank sources the pool from different recognized public and private universities; with a view to create a diverse work force.

## Employees by religion:

| Religion  | No. of Emp. | Percentage |  |  |
|-----------|-------------|------------|--|--|
| Islam     | 2,685       | 90.77%     |  |  |
| Hindu     | 255         | 8.62%      |  |  |
| Buddhist  | 15          | 0.51%      |  |  |
| Christian | 03          | 0.10%      |  |  |
| Total     | 2,958       | 100%       |  |  |

Besides, our ration of male and female employees has been increasing over the time. Currently, approximately 23.73% of total employees are female. On the other hand, 15.00% of the Board of Directors represents females.

## Gender diversity among employees:

| Gender | No. of Employees | Percentage |
|--------|------------------|------------|
| Male   | 2,256            | 76.69%     |
| Female | 702              | 23.73%     |
| Total  | 2,958            | 100.00%    |

## Percentage of female employee over the years:

| Year | % of Female Employees |
|------|-----------------------|
| 2019 | 21.83%                |
| 2020 | 22.04%                |
| 2021 | 22.39%                |
| 2022 | 23.31%                |
| 2023 | 23.73%                |

## Gender diversity among Board members:

| Gender | No. of Members | Percentage (%) |
|--------|----------------|----------------|
| Male   | 17             | 85.00%         |
|        |                |                |

| Female | 03 | 15.00% |
|--------|----|--------|
| Total  | 20 | 100%   |

# New recruitment by gender and age:

# By Gender:

| Gender | No. of Emp. | %      |
|--------|-------------|--------|
| Male   | 175         | 76.09% |
| Female | 55          | 23.91% |
| Total  | 230         | 100%   |

# By Age:

| Age group          | No. of Emp. | %      |
|--------------------|-------------|--------|
| Below 30 years     | 71          | 30.87% |
| 30 to 50 years     | 152         | 66.09% |
| Over 50 years      | 07          | 03.04% |
| <b>Grand Total</b> | 230         | 100%   |

# Employee turnover by gender and age:

# By Gender:

| Gender | No. of Emp. | %      |
|--------|-------------|--------|
| Male   | 149         | 83.24% |
| Female | 30          | 16.76% |
| Total  | 179         | 100%   |

# By Age:

| Age group      | No. of Emp. | %      |
|----------------|-------------|--------|
| Below 30 years | 06          | 3.35%  |
| 30 to 50 years | 152         | 84.92% |
| Over 50 years  | 21          | 11.73% |
| Grand Total    | 179         | 100%   |

For the year 2023, the turnover rate is 6.03%.

#### **Learning & Development**

In Prime Bank, Human Resources (HR) Division regularly undertakes effectively designed training programs targeting the right group of employees through proper training need assessment. Prime Bank believes that continuous efforts should be given so that employees acquire and develop the right set of skills required to face the challenge of ever changing market.

In Prime Bank, the employee development plan is based on proper training need assessment. In 2023, Bank's internal HR Training and Development Centre arranged training on different topics for 14900 enthusiastic participants.

The banking sector is complex and diverse with evolving nature of threats and the risks. So, the training module is updated time to time for employees of the Bank in the changing context of financial market.

# Openness in communication for a better employeemanagement relation

Employee communications and consultation are the lifeblood of any business. Proper exchange of information and instructions help the Bank to function more efficiently and provides the opportunity to build greater trust among employees and management in discussing issues of mutual interest. To ensure effective employee communications, management takes a positive lead.

The Management has introduced a Whistleblower Protection Policy which intendeds to encourage and enable employees and others to raise serious concerns internally so that the Management can address and correct inappropriate conduct and actions. Employees have an avenue to report concerns about violations of code of ethics or suspected violations of law or regulations. The policy covers the protection of a whistleblower in two important areas – confidentiality and against retaliation. An employee who retaliates against someone who has reported a violation in good faith is subject to discipline up to and including termination of employment.

Additionally, now there is an avenue to report sexual harassment in the workplace. The policy aims to ensure a working environment in line with our values, where all individuals are treated equally, fairly and with dignity and also foster compliance with governing laws pertaining to sexual harassment. Such policy creates awareness about the nature of offences and the consequences of an offender. This not only fosters a neutral environment but gives a feeling of assurance that any wrong doing will be strictly addressed by the Management.

Any operational changes are properly planned and managed. Management follows a participative approach during any major transformation followed by prior communication to the employees. Since there is no trade union or employee association, no notice period regarding operational change is stipulated by any collective agreement.

#### **Ethical and Lawful Behavior in Prime Bank**

Prime Bank is always committed to establish the highest level of ethical standard. Employees are properly oriented to comply with Code of Ethics & Business Conduct. All employees duly signed the 'Code of Ethics & Business Conduct' and the copy is preserved in respective Employee Records. During joining, HR Division makes sure that all the new employees read and accept this policy by signing.

Bank also has 'Service Excellence Handbook' & 'General Code & Discipline', which are read by each employee including new employees while joining in the Bank and record of these are preserved in personal file after signing by employees.

"The Prime Bank Employee Code of Ethics and Business Conduct" – is a framework of ethical behavior for all the employees of the organization that embodies all the factors mentioned above. It is a reflection of Prime Bank's role as a socially responsible corporate citizen which believes in providing the most courteous and efficient service through innovative banking services and products. However, Prime Bank's most farsighted objective is to uphold and build upon the honour of Bangladesh as a nation, through exhibiting its own competence as a local organization that can perform at least on par with a multinational one, if not better than one.

The employees of Prime Bank are trained to put their own duties and ethics before everything else. They treat their colleagues with reverence and honour, and their customers as esteemed guests. They also learn to abide by the laws that govern our business, and contribute to the strength and wellbeing of our community and shareholders. In addition to their regular responsibilities employees are also expected to demonstrate the below ethical behavior:

- Protect Privacy of Customers' and Confidential Company Information;
- Prevent Money Laundering and/or Fraud;
- Demonstrate Workplace Respect;
- Avoid Offensive Behavior and Sexual Harassment;
- Avoid Drug/Substance/Alcohol Abuse in the Workplace;
- Protect the Bank's Assets;

It is mandatory for every employee of Prime Bank Limited to abide by the 'Employee Code of Ethics and Business Conduct' and also comply with any other orders or directions provided by the Management or Board of Directors from time to time.

## **Human Resources Accounting in Prime Bank**

To understand and draw an inference on how well the Human Resources are yielding on the investment made, Prime Bank tracks the profit and related HR costs. In this process, the costs of recruitment, training, compensation, other direct cost related to employees are measured to estimate the overall investment. The costs are then compared with several parameters. This analysis helps the Bank to have an outlook and make prudent decisions on future HR investment. Valuing the human resources and measuring the direct impact of the cost spent for employees is difficult as there is no specific or widely adopted method. Human Resources accounting is the process of valuing human resources as assets. Presently, this is not accounted in the conventional accounting practices. The period of existence of a set of human resources in an organization cannot be predicted; hence treating and valuing them as assets in strict sense is not plausible. However, followings are some of the parameters which are tracked year on year:

|  | Amount in BDT<br>Million |       |
|--|--------------------------|-------|
| <b>Particulars</b>                     | 2023 2022                |       |
| Salary cost per employee               | 1.67                     | 1.55  |
| Operating cost per employee            | 2.84                     | 2.66  |
| Operating income per employee          | 6.01                     | 5.66  |
| Profit before provision per employee   | 3.17                     | 3.00  |
| Profit before tax per employee         | 2.30                     | 2.14  |
| Salary cost as percentage of operating | 58.85%                   |       |
| cost                                   |                          | 58.27 |
| Salary cost as percentage of operating | 27.78%                   |       |
| income                                 |                          | 27.38 |

| iii) Potential  | Risk factors/Potential external events:  |
|---|--|
| external<br>events  | There are certain risk factors which are external in nature but can affect the business of the Bank. The factors discussed below can significantly affect the banking business:  |
|   |  |
|   |  |
|   |  |
|   |  |
|   |  |
| iv) Policies<br>and processes<br>for mitigating<br>operational<br>risk. | Prime Bank PLC. promotes proactive Operational Risk Management (ORM) culture that starts with identification and escalation of risk from operational level to management and strategic level in applicable case. Risk Management Division (RMD) has developed operational risk management policies embedded in its risk management policies. Major focus of operational risk management in Prime Bank PLC. revolves around identifying and mitigating risks escalated through risk platform, different forums, Business as Usual (BAU) operations and Audit & Inspection findings. ORM also reviews policies, PPGs, SOP etc. from time to time as and when required. |
|   | Prime Bank PLC. has implemented an enterprise-wide AML (Anti-Money Laundering) and CFT (Combating the Financing of Terrorism) compliance program, which covers all the activities of the Bank and is reasonably designed to comply with applicable laws and regulations. As a part of managing core risk, Prime Bank PLC. has own "Money Laundering & Terrorist Financing Risk Management Guidelines" approved by the Board of Directors. In addition, Prime Bank PLC. also have a board approved Trade  |

Based Money Laundering (TBML) Guideline. For strengthening the AML/CFT Compliance Program of the Bank, Prime Bank PLC. introduced a SAR/STR reporting system: PrimeDefence; "Fair Price Analysis Tools", E-learning program on AML/CFT, 'AML & CFT Portal', 'Automated Sanction Screening System' etc.

Internal Control & Compliance Division (ICCD) of Prime Bank PLC. look after ICC risk of the Bank. Internal Audit on the other hand is a part of Internal Control system independent from the management, reinforces the control system through regular review. In 2023, a total of 8643 non-compliant audit issues were resolved, whereas in 2022 a total of 7680 issues were resolved. Prime Bank PLC. always initiates rigorous drives to regularize non-compliance issues with success.

Prime Bank PLC. established a separate Service Quality and Complaint Management Cell within Client Experience and Process Governance Unit and a well-established process for settlement of complaints raised by customers and through Bangladesh Bank. During January to December 2023, 669 nos. of customer complaints were settled out of 686 cases. Rest 15 were resolved by January, 2024 and 2 cases are under process for settlement/resolution. It reflects proactive impression of management toward complaint management and customer satisfaction.

Prime Bank PLC. introduced the central Business Continuity Plan (BCP) that covers the entire business continuity plan of the bank. A comprehensive DR Drill has been on the fixture annually and was last tested in September 2022 in compliance with the revised DR Document. The bank is continuously trying to improve the Disaster Recovery management and preparedness & compatibility of its Disaster Recovery Site (DRS).

Prime Bank PLC. has comprehensive documented policy developed by Information Security Division (ISD) in compliance with the existing regulatory and Bangladesh Bank regulations & guidelines. Prime Bank PLC. obtained *ISO 27001:2013 Certificate* related to Information Security Management System in and *ISO 9001:2015 Certificate* related to Quality Management System (QMS) in 2022.

Prime Bank PLC. has a robust network infrastructure with scalable, secure, redundant and load balanced architecture to support its customers regarding the on-line transactions with highest level of security. Prime Bank PLC. has adopted world class Core Banking Software "TEMENOS T24. Prime Bank PLC. maintains a Tier-3 compatible standard Data Center (DC), also has a Disaster Recovery Site (DRS) located at Uttara. The Bank is also under process of acquiring a DR in different Seismic Zone other than Dhaka to Bolster the Data Security & Business Continuity initiatives. So far, bank has not incurred any Financial

or Reputational losses from Information Technology (IT) or Information Security (IS) lapses due to ensuring efficient management Information, Technology and System risk.

To monitor operational risks; function specific Key Risk Indicators (KRIs) for Branches, Alternative Delivery Channel, Liability Operations, Trade Services, Credit Administration, Cash Management, Asset Liability Management, Money Laundering, IT, Treasury, Centralized Clearing Cell, Financial Administration, Legal, Sustainable Finance, Financial Institutions etc. have been developed. Risk treatment techniques for Red KRIs are implemented so that their levels can be kept at an acceptable level. RMD is regularly sharing KRI monitoring result in periodic meeting of Risk Management Forum (RMF), Executive Risk Management Committee (ERMC) and Board Risk Management Committee (BRMC).

v) Approach for calculating capital charge for operational risk. The Basel framework provides three approaches for the measurement of the capital charge for operational risk: Basic Indicator Approach, Standardized Approach and Advanced Measurement Approach. Out of three approaches, Bangladesh Bank adopted basic indicator approach for calculating capital charge against Operational Risk. Under that approach, Prime Bank PLC. calculated capital charge based on a fixed percentage (15%) of average positive annual gross income of the bank of last three years.

| Quantitative |    | Particulars                                  | Solo Basis | Consolidated |
|--------------|----|--|------------|--------------|
| disclosure   |    |  | Taka i     | in Crore     |
|              | b) | The capital requirement for operational risk | 249.29     | 257.23       |

## 9. Liquidity Ratio:

| Qualitative<br>Disclosure | (a) | <ul> <li>Views of BOD on system to reduce Liquidity Risk</li> <li>Methods used to measure Liquidity Risk</li> <li>Liquidity risk management system</li> <li>Policies and processes for mitigating Liquidity Risk.</li> </ul>  |
|---------------------------|-----|---|
|                           |     | Bank is maintaining the ratios mentioned in the Bangladesh Bank guideline considering all the relevant factors, policies and procedures to mitigate Liquidity Risk. A brief discussion on the emergence of those ratios and their interpretation is stated in the following part: |

In the aftermath of the financial crisis of 2008-09, the Basel Committee of Banking Supervision (BCBS) emphasized on a program of sustainability revising its existing guidelines with a goal to promote a more resilient banking sector through further restructuring of the existing approach by strengthening global capital and liquidity rules within the global regulatory framework.

BCBS proposed two liquidity ratios in December 2009 i.e. 1. Liquidity Coverage Ratio (LCR) and 2. Net Stable Funding Ratio (NSFR). Following that Bangladesh Bank vide its BRPD Circular No-07 dated March 31, 2014, declared the road map for implementing the Revised Regulatory Capital Framework for banks in line with Basel III in Bangladesh starting from the year 2015. According to the revised road map issued vide BRPD Circular No. 18/2014, from January 2015 and onwards Banks have to maintain a standard LCR and NSFR, the minimum standard of which is defined by Bangladesh Bank.

Prior to LCR and NSFR, Cash Reserve Ratio (CRR), Statutory Liquidity Reserve (SLR), and Advance Deposit Ratio (ADR) were grossly used as benchmark parameter of measuring a bank's liquidity in most of the countries. But in the wake of financial crisis due to the limitations, as well as ineffectiveness of those ratios, the BCBS suggested more reforms in the liquidity measures like LCR and NSFR which are more relevant with the structure and mix of Bank's balance sheet as well as funding.

For the LCR, the stock of high quality liquid assets is compared with expected cash flows over a 30 day stress scenario. The expected cash outflows are to be covered by sufficient liquid, high quality assets. It aims to ensure that a bank maintains an adequate level of unencumbered, high-quality liquid assets that can be converted into cash to meet its liquidity needs for 30 calendar days. The minimum standard set by BB is that LCR shall be greater than or equal to 100.

On the other hand, the NSFR compares available funding sources with funding needs resulting from the assets on the Balance Sheet. Like the LCR, the NSFR calculations assume a stressed environment. It aims to limit over-reliance on short-term wholesale funding (mostly interbank) during times of abundant market liquidity, increase stability of the funding mix, encourage better assessment of liquidity risk across all on- and off-balance sheet items, and promotes funding stability. The minimum standard set by BB is that NSFR shall be greater than 100.

# Quantitative Disclosures

- (b)
- Liquidity Coverage Ratio: 163.14%
- Net Stable Funding Ratio (NSFR): 113.67%
- Stock of High quality liquid assets: BDT 9,863.98 Crore
- Total net cash outflows over the next 30 calendar days: BDT 6,046.24 Crore
- Available amount of stable funding: BDT 32.843.07 Crore
- Required amount of stable funding: BDT 28,892.46 Crore

(The above ratios and balance are stated as per position of December 31, 2023)

#### 10. Leverage Ratio

| Qualitative<br>Disclosures | (a) | Views of BOD on system to reduce excessive leverage policies and processes for managing excessive on and off-balance sheet leverage:  |
|----------------------------|-----|---|
|                            |     | In order to avoid building-up excessive on- and off-balance sheet leverage in the banking system, a simple, transparent, non-risk based leverage ratio has been introduced. The leverage ratio is calibrated to act as a credible supplementary |

measure to the risk based capital requirements. The leverage ratio is intended to achieve the following objectives:

- a) constrain the build-up of leverage in the banking sector which can damage the broader financial system and the economy
- b) reinforce the risk based requirements with an easy to understand and a non-risk based measure

Prime Bank calculates leverage ratio on quarterly basis and submits it to the Department of Off-site Supervision (DOS), Bangladesh Bank along with CRAR report.

## Approach for calculating exposure:

A minimum Tier-1 leverage ratio of 3% has been prescribed by Bangladesh Bank to maintain by the Banks both at solo and consolidated level. As per BRPD Circular No-18 dated 18 August 2021, banks need to gradually increase the ratio @ 0.25% per year from 2023 to 2026. Accordingly, Prime Bank maintains leverage ratio on quarterly basis. The formula for calculating leverage ratio is as under:

Leverage Ratio = Tier-1 Capital (after related deductions)/ Total Exposure (after related deductions)

| Quantitative<br>Disclosures | (b) |     |  | Solo          | Consolidated |
