Objective:

Plastic card is the sharp weapon of future banking business. Credit card – the plastic money is getting the interest of people as an alternative source of paying off as days go on. AS it is convenient, safe and prestigious to carry with, middle-class customers are rushing for it. It is the most sophisticated way of providing credit to customers from a bank. This industry is getting competitive day by day as new members are entering into card industry with superlative features. To maintain the board image and survive in the market it has become a burning issue to beat the market trend by providing splendid service to the cardholders. In this connection with the demand of this changing era Card Division has adopted various new advanced facilities e.g. SMS service, Shop n Win Services, IVR (Interactive Voice Responder) Service, E-Statement and E-alert service etc. These sophisticated facilities require an uninterrupted communication system through computer server.
